What was the origin of the Feast of Corpus Christi?

The original purpose of the Feast of Corpus Christi was to instruct the people in the mystery and meaning of the Holy Eucharist. The celebration of this feast evolved during the thirteenth and fourteenth centuries. It was preceded by the eleventh century Berengarian heresy. Berengar of Tours was an archdeacon who taught that the presence of Christ in the Eucharist is more symbolic than real. The Feast of Corpus Christi counteracted his heresy by reaffirming the Church's traditional teaching about the "real presence" of Christ in the Holy Eucharist. In 1994 The Catechism of the Catholic Church repeated this teaching by saying: "It is by the conversion of the bread and wine into Christ's body and blood that Christ becomes present in this sacrament." (paragraph 1375) This conversion is brought about by the sanctifying action of the Holy Spirit and the priest's proclamation of the words that Jesus said at the Last Supper.

Fr. Jerry Schik, o.s.c.

Footnote: In the modern liturgical calendar the Feast of Corpus Christi is called the Solemnity of the Most Holy Body and Blood of Christ.
